

PHEEKUS

Painted on Site – Plein Air Journeys Through Europe

Artworks Catalogue

“A landscape painter must see not only with the eye but with the mind — organizing the chaos of nature into a unity of feeling.”

— Edgar Payne

This catalogue presents plein air works created between 2023 and 2025, marking moments of observation and travel. Together, they form a personal map of light and distance. A reminder of how painting connects seeing with being present.

Pheekus (b. 2001, Vinnytsia) is the pseudonym of Viktoriia Chumak, a painter from **Kyiv, Ukraine**. Her practice focuses on plein air painting created directly on site across various places, alongside a continuing interest in contemporary figurative art. She studied at the Mykhailo Boychuk Kyiv State Academy of Decorative and Applied Arts and Design and has also taken part in international workshops and art projects across Europe and beyond.
